Term & Conditions

Please Read

- Visionchart will take reasonable care to complete the installation but will not be responsible for the movement of any office furniture and for any damage or scratched that may occur because the work space is not adequate to deliver the boards into a particular room or a restricted space in which to maneuver the board into position.
- Should there be an unreasonable time delay due to any of the above Visionchart reserve the right to raise an additional charge.
- The installation of the board(s) is warranted against defects for a period of 90 days. Please notify us for any loose fittings or irregularities on enquiries@visionchart.com.au with a description and images. Calls after this time will incur a call out inspection fee and/or a re-installation fee.

Is Delivery Above The Ground Floor ?

If, YES please understand the following

The WHS policy of Visionchart requires us to consider the health and safety of our employees when delivery and/or installing boards, particularly larger sizes.

LIFTS

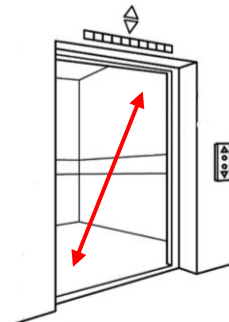

For items to be delivered *above* the ground floor, we need to know if the product will fit into the Lift. There may be space WITHIN the lift ... but if we cannot get the product through the lift doors, then the delivery will probably be unable to occur. The longest board (**including the outer carton**) that can go into a lift is the diagonal of the LIFT DOOR opening.

The diagonal can be calculated on any calculator:

Diagonal Measurement =

$$\sqrt{H^2 + W^2}$$

If your customer needs a longer board, but is greater than the diagonal we will deliver to the ground floor. *Once the goods are signed for as received in good condition we do not cover any credits or replacements for damages etc thereafter.*

STAIRS

There are many types of stairs, so this is a guide only

- We will only deliver up two (2) flights of stairs for boards no bigger than 1500x900mm.
- For single flights of stairs (no turning) we should be able to deliver board no bigger than 2100x1200mm (no including Glassboards)
- Larger sizes may require more than one (1) person.
- We cannot deliver up Fire Escape Stairwells (by LAW this area MUST be kept clear at ALL TIMES)

IMPORTANT NOTE: *The Manufacture will not be held responsible for any damages that occur to any oversized boards (larger than the above parameters) has been moved to another floor or location by a third party.*

What You Need To Do Now ... Email to reno@stormrusso.com.au

Please scan and Email to service@visionchart.com.au or orders@visionchart.com.au

I/We have read your OH&S requirements and ...

Yes, the largest board/s will fit into the lift. Please proceed with the delivery.

No, Delivery to GROUND FLOOR is required. I/We will organise delivery from this point
(I/We understand if we dent, scratch or damage the product in anyway it no longer is covered under any Warranty)
